

## **Section 5: Funding for Plan Implementation**

### **LWRM Plan Implementation**

The agencies and personnel that will be involved in the implementation of the action plan are the Crawford County Land Conservation Department, UW-Extension NPM Staff Ag/Resource Agent, USDA- FSA & NRCS Offices, and Southwest Badger RC&D.

### **Funding Plan Implementation**

The Crawford County Land and Water Resources Plan is a document that can be used by all of the partners that work to protect soil and water resources in Crawford County. Therefore, a combination of private, local, state, and federal sources will be sought to implement the priorities of the plan. As funding opportunities arise, the plan goals and objectives will be referenced to develop project applications. A partial list of potential funding sources is included. The lead agency to pursue funding will depend upon the individual objectives being pursued.

***\*County Cost-Share Program***

The Crawford County Land Conservation Committee will work to develop a county-funded cost share program that will supplement other funding sources. One advantage of local program is that it can be structured with greater flexibility than federal or state programs to encourage landowner participation.

Local residents, staff, and elected officials will use their influence to structure the development of state and federal grant programs whenever possible, and will assist the Land Conservation Committee in developing the cost-share program.
