

2016 Crawford County Tree Sale

Red Oak (*Quercus rubra*)

Hardy northern oak prized for its lumber and beneficial acorns. Dark waxy green leaves.
Medium to fast growth....80-100 feet

White Oak (*Quercus alba*)

Large majestic form, valued for its water/rot proof lumber, oak wilt resistant as it will wall off the disease. Excellent acorn production, preferred by wildlife because it lacks the tannins found in acorns of the black oak family.
Medium growth.....80 feet

Black Cherry (*Prunus serotina*)

Excellent ornamental, deep green leaves. Great food for wildlife, highly prized wood.
Fruit used for preserves.
Medium growth..... 60-70 feet

Red Maple (*Acer rubrum*)

Grows well in moist bottom land. Excellent choice as an ornamental, green leaves in summer, scarlet red fall foliage is a real eye stopper. Valuable lumber species.
Medium growth..... 120 feet

White Pine (*Pinus strobus*)

Native 5-needle pine with a variety of uses. Timber, Christmas trees, windbreaks, wildlife habitat or as an ornamental.
Fast growth....80-100 feet

White Spruce (*Picea glauca*)

Hardy northern spruce with stiff bluish green needles.
Symmetric growth. Short needle length....50 feet

American Highbush Cranberry (*Viburnum trilobum*)

White flowers in flat clusters in May. Beautiful lustrous green leaves followed by scarlet red fruit and leaves in fall. Fast growth.....8-12 feet

Antanovka Apple (*Malus antanovka*)

Late-fall or early-winter cultivars, strong acid flavor. Sustain long harsh winters and has superior preservation qualities. Heavy fruit after 5 years, good for food plot and shelterbelt plantings as well as eating. Fast growth.....40 feet

American Hazelnut (*Corylus Americana*)

A vigorous multi-stemmed shrub, tolerant of varied soil types. Dark green summer foliage turning bright yellow or burgundy in fall. Interesting floret type, seed pockets hold sweet filberts highly prized by man and wildlife.
Fast growth..... 10 feet
